

YAEGAKI

Biotechnology

YAEGAKI Biotechnology, Inc.

In 1979 YAEGAKI Biotechnology, Inc. was established. Based on the fermentation technology developed over many years at the YAEGAKI Sake & Spirits, its speciality lies in research and development of fermentation processes.

YAEGAKI Biotechnology produces general and functional food ingredients and food colouring agents using various micro-organisms, based on state-of-the-art biotechnology. We are taking on the challenge of the unlimited potential of micro-organisms to create valuable and sustainable future.
